**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor, the City Council, and Management
City of Springfield, Massachusetts

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Springfield, Massachusetts, as of and for the year ended June 30, 2011 (except for the Springfield Contributory Retirement System which is as of and for the year ended December 31, 2010), which collectively comprise the City of Springfield, Massachusetts' basic financial statements and have issued our report thereon dated January 18, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Springfield Redevelopment Authority and the Springfield Library and Museums Association, as described in our report on the City of Springfield, Massachusetts' financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Springfield, Massachusetts' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Springfield, Massachusetts' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Springfield, Massachusetts' internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Springfield, Massachusetts' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of the City of Springfield, Massachusetts, in a separate letter dated January 18, 2012.

This report is intended solely for the information and use of management, City Council, and others within the City, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS THAT
COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Honorable Mayor, the City Council, and Management
City of Springfield, Massachusetts

Compliance

We have audited the compliance of the City of Springfield, Massachusetts, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the City of Springfield's major federal programs for the fiscal year ended June 30, 2011. The City of Springfield, Massachusetts' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City of Springfield, Massachusetts' management. Our responsibility is to express an opinion on the City of Springfield, Massachusetts' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Springfield, Massachusetts' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City of Springfield, Massachusetts' compliance with those requirements.

In our opinion, the City of Springfield, Massachusetts' complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2011. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item #11-01.

Internal Control Over Compliance

Management of the City of Springfield, Massachusetts is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City of Springfield, Massachusetts' internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Springfield, Massachusetts' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis.

A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Springfield, Massachusetts, as of and for the fiscal year ended June 30, 2011 (except for the Springfield Contributory Retirement System which is as of and for the year ended December 31, 2010), and have issued our report thereon dated January 18, 2012. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City of Springfield, Massachusetts' basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, City Council, and others within the City, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

C. Findings and Questioned Costs – Major Federal Award Programs Audit

U.S. DEPARTMENT OF ENERGY	<u>Questioned Costs</u>
Energy Efficiency and Conservation Block Grant	81.128 None

11-01: *Condition and Criteria:* During our audit we noted that the City was in compliance with state procurement laws as they relate to the purchase of goods and services. There are several state laws that dictate when a community must obtain quotes, or go through a competitive bidding process to award contracts, and we were provided with adequate documentation for the City to support its procurement decisions. We noted, however, that this grant was also reviewed by the State of Massachusetts’ Office of the Inspector General (OIG). The OIG’s report noted a finding related to the use of pre-existing contracts in connection with the purchase of four boilers which we concur with. The OIG’s report states the following: “The City’s use of pre-existing maintenance and “on-call” service contracts for large capital improvements such as boiler replacements raised concerns for the OIG. As ARRA requires additional transparency and accountability and stresses that the use of these funds should be protected against fraud, waste, and abuse, the use of the City’s pre-existing price contracts for the procurement of boilers may have been inappropriate”. “The OIG believes that project specific capital improvements for public buildings, such as boiler replacements, should receive the benefits of fair, open, and competitive procurement processes to help ensure that a jurisdiction pays reasonable priced design and construction services”.

Cause: The City did not comply with the ARRA procurement provisions for this grant.

Effect: The City is not in compliance with the grant procurement requirements.

Auditors’ Recommendation: We recommend that the City implement procedures to comply with the applicable ARRA procurement requirements for this grant.

Management’s Response: Management has implemented the necessary procedures to ensure compliance with these procedures going forward.

D. Prior Year Audit Findings and Questioned Costs
