

Springfield and its Neighborhoods

Statistical Profile
for
Springfield, Massachusetts

With selected population,
housing, economic and
social data from the
2000 U. S. Census.

March, 2003

Statistical Profile

Springfield and its Neighborhoods

Source of Data

The principal source of data for this statistical summary is the 2000 census prepared by the United States Department of Commerce, Bureau of the Census. Census information was derived from questions asked of the entire population (100% data) or questions asked of approximately 17 % of the population (sample data). The data are contained in two machine readable data files prepared by the Bureau of Census. Summary Tape File 1 (STF 1) presents the 100% data in population and housing tables. Summary Tape File 3 (STF 3) contains sample data weighted to represent the total population. Data in STF 3 are presented in population and housing tables.

Availability of Data

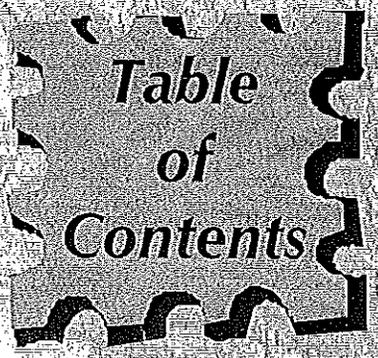

The Springfield Planning Department has obtained both STF 1 and STF 3 for the City of Springfield. STF1 data are available for census tracts, block groups or individual blocks. STF 3 data are available for census tracts and block groups. For information regarding the availability of census data, contact:

Springfield Planning Department
Room 300, City Hall

	<i>Page</i>
<i>Introduction and Maps</i>	1-9
<i>I. Population Characteristics</i>	10-19
<i>III. Age, Household and Family Characteristics</i>	20-26
<i>IIII. Education</i>	27-30
<i>IV. Income and Poverty Status</i>	31-36
<i>V. Labor Force Characteristics</i>	37-41
<i>VI. Nativity, Residence and Language</i>	42-45
<i>VII. Transportation</i>	46-48
<i>VIII. Housing Characteristics</i>	49-62

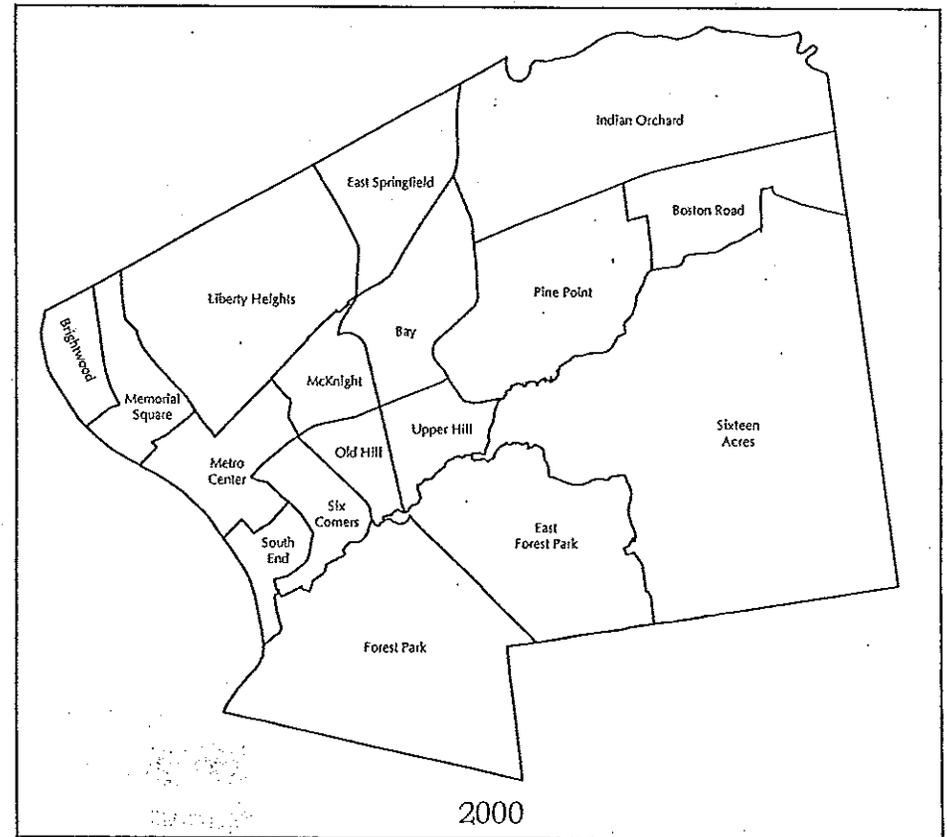

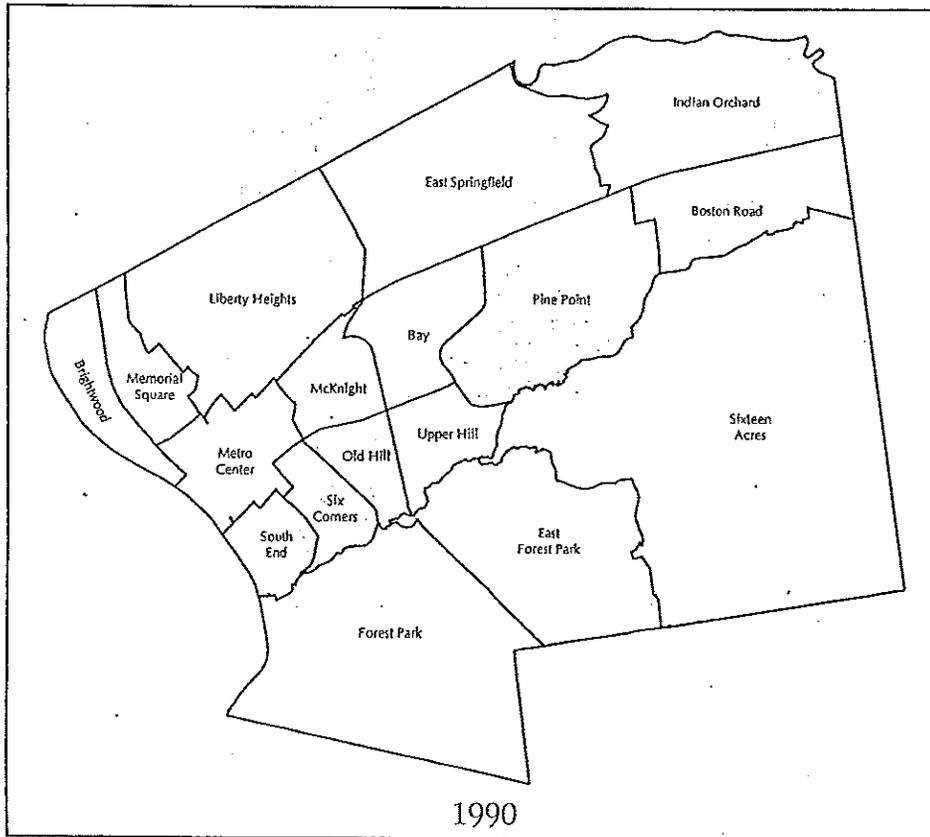

In 1990, the Census Bureau was able to provide the City of Springfield with data based on specifically requested boundaries. Because of this, the City used the official boundaries of Springfield's 17 neighborhoods to compile the data.

In 2000, however, the set of data was only available by designated Census boundaries. Due to this limitation, the "neighborhoods" compiled in this book for the year 2000, while quite similar to the official neighborhood boundaries, are only approximations, based on the boundaries of the census tracts.

These discrepancies are illustrated below, and highlighted on the next seven pages. They ***do not represent official changes to any boundaries***, but rather differences between the constraints of the data compiled for this book in 1990 and 2000.

This is especially important when comparing specific neighborhood data between the 1990 and 2000 census release years, as some of the numerical differences will be due to these boundary differences.

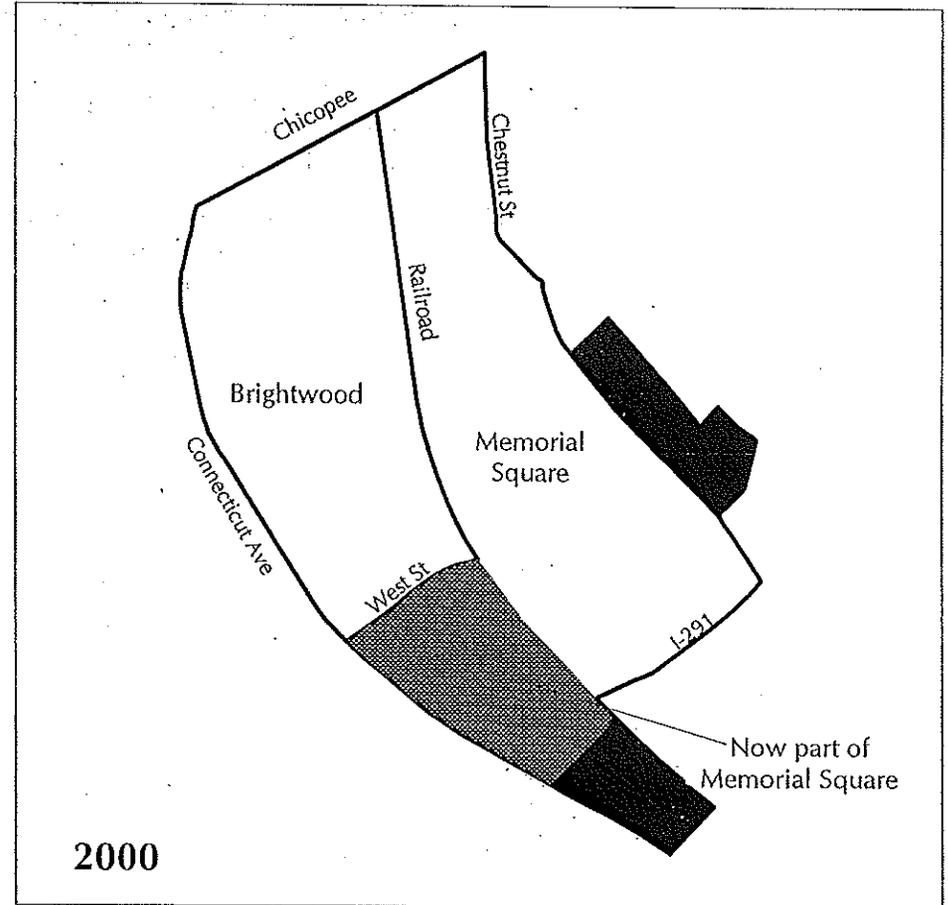

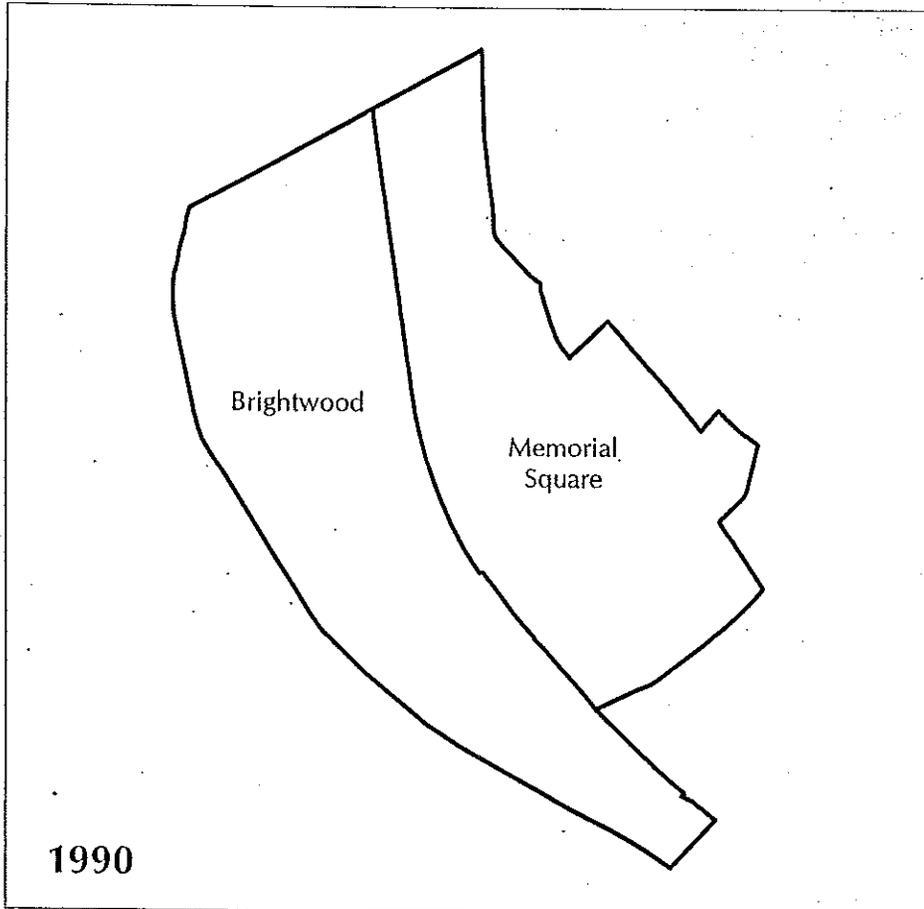

All but one (Pine Point) of the city's 17 neighborhoods have been affected by this change, to varying degrees. The changes to Bay, Brightwood, McKnight, Old Hill, Upper Hill, and East Forest Park, are generally minor.

NOTE: These changes have only been made for the purposes of distributing data in this book. The 17 official neighborhood boundaries remain unchanged.

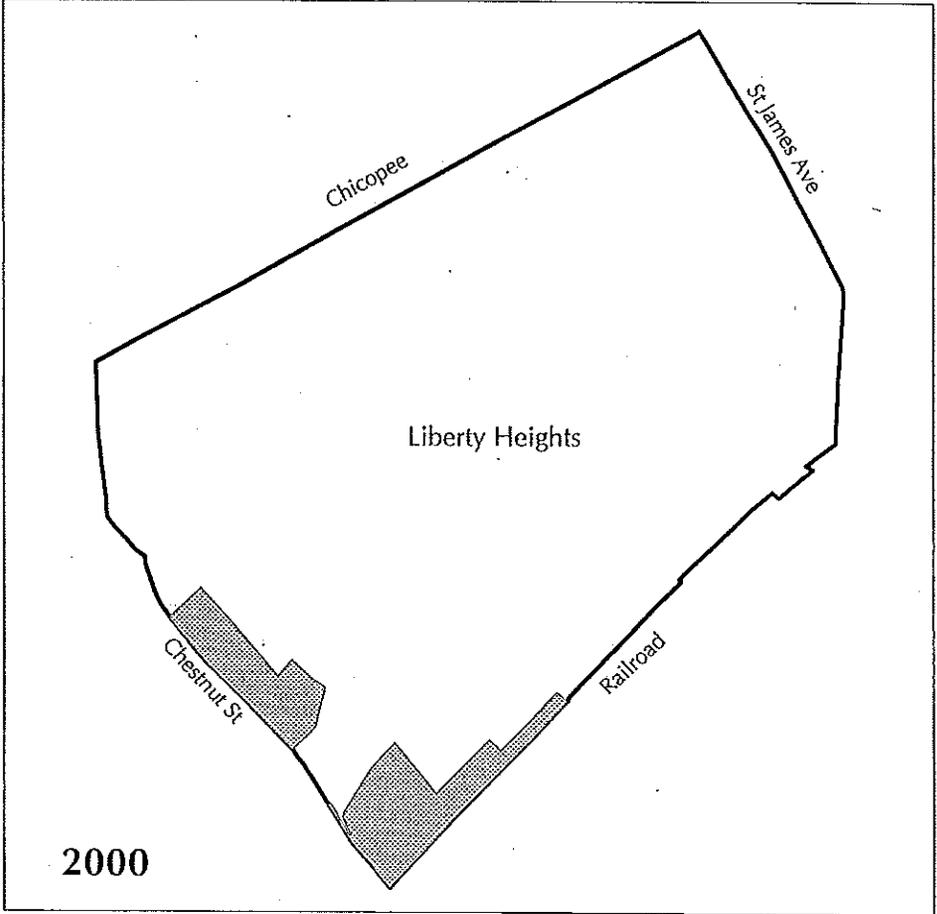

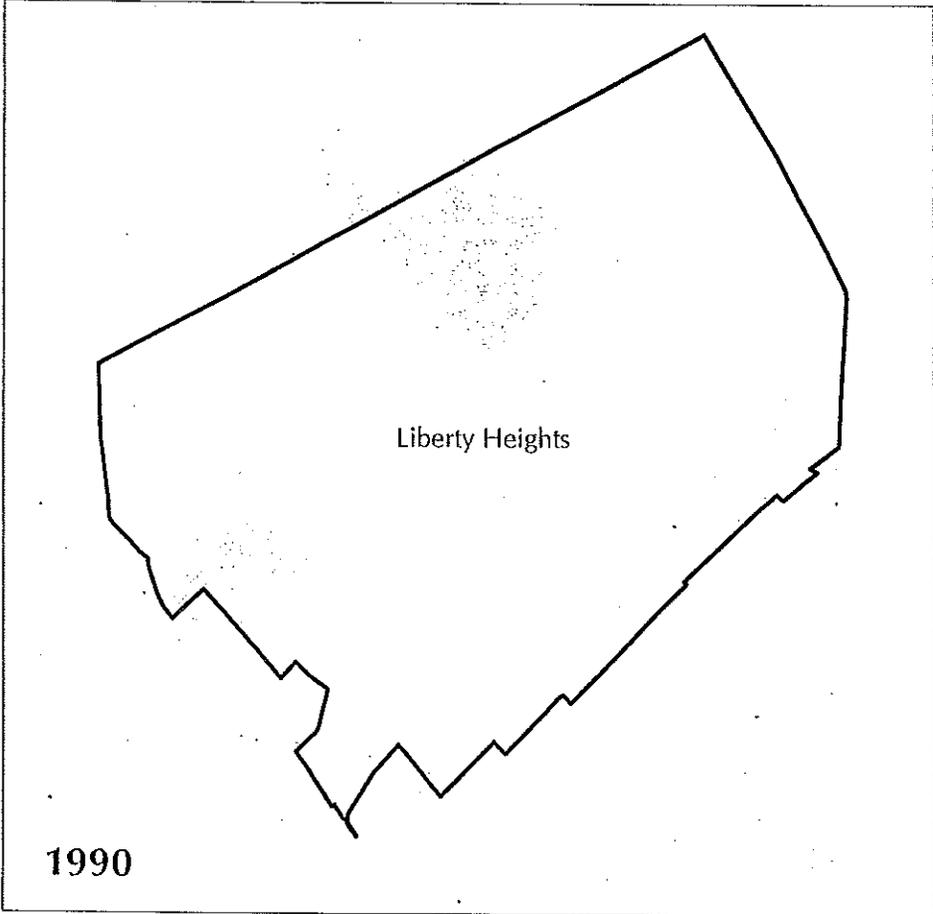

Brightwood and Memorial Square

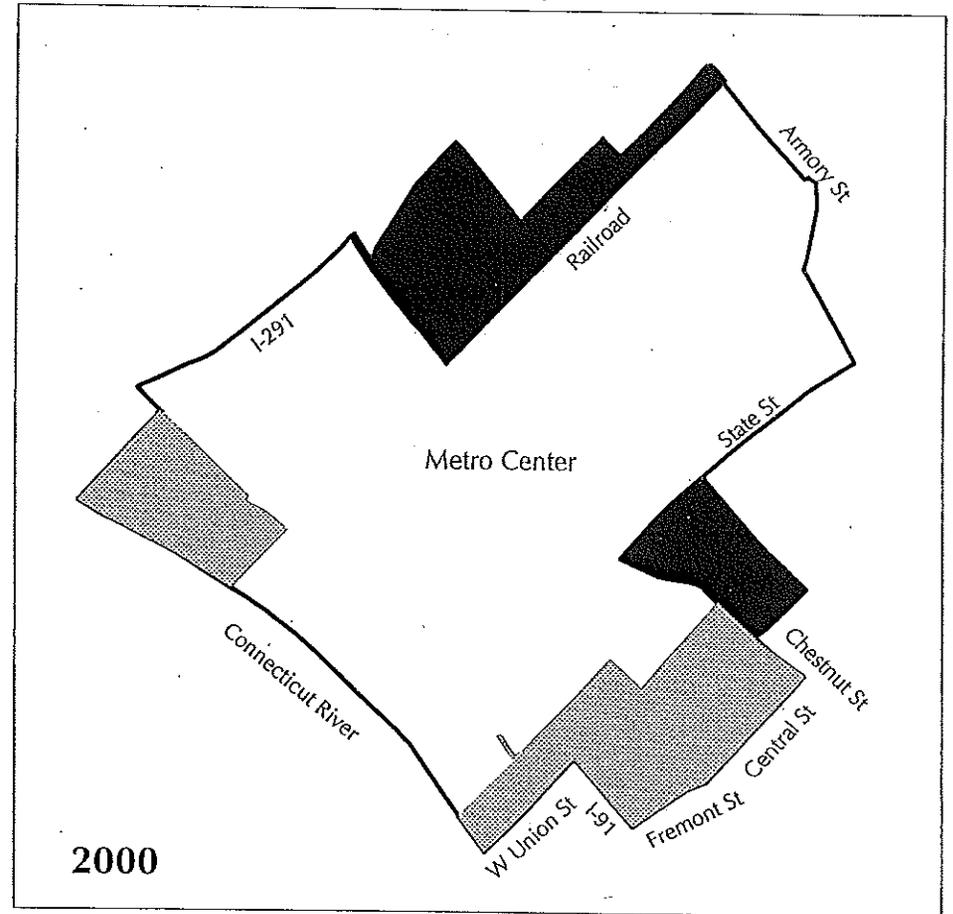

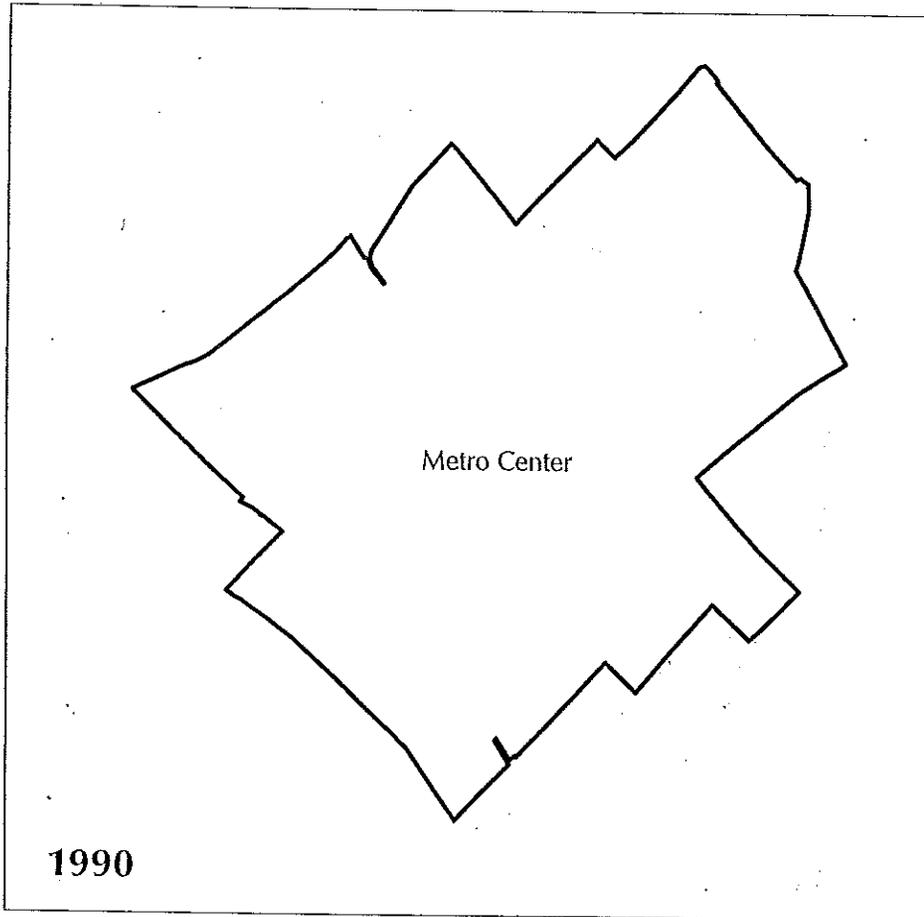

-  Now part of neighborhood
-  No longer part of neighborhood
-  Area of change between neighborhoods

Liberty Heights

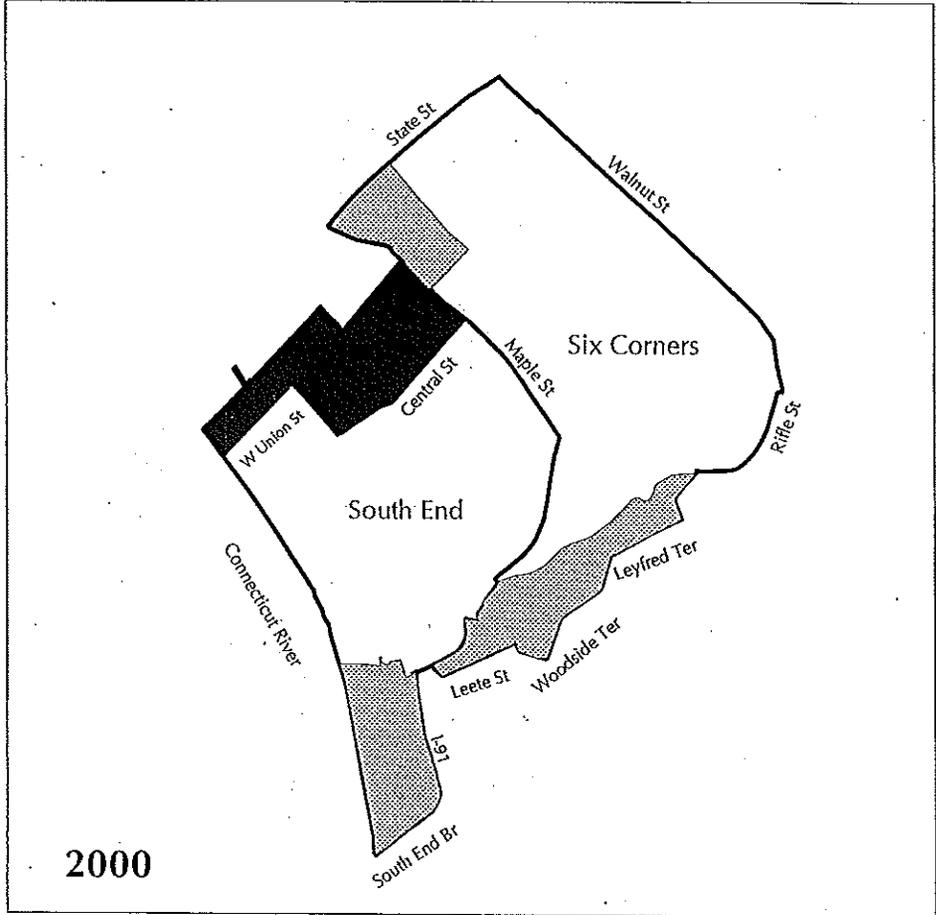

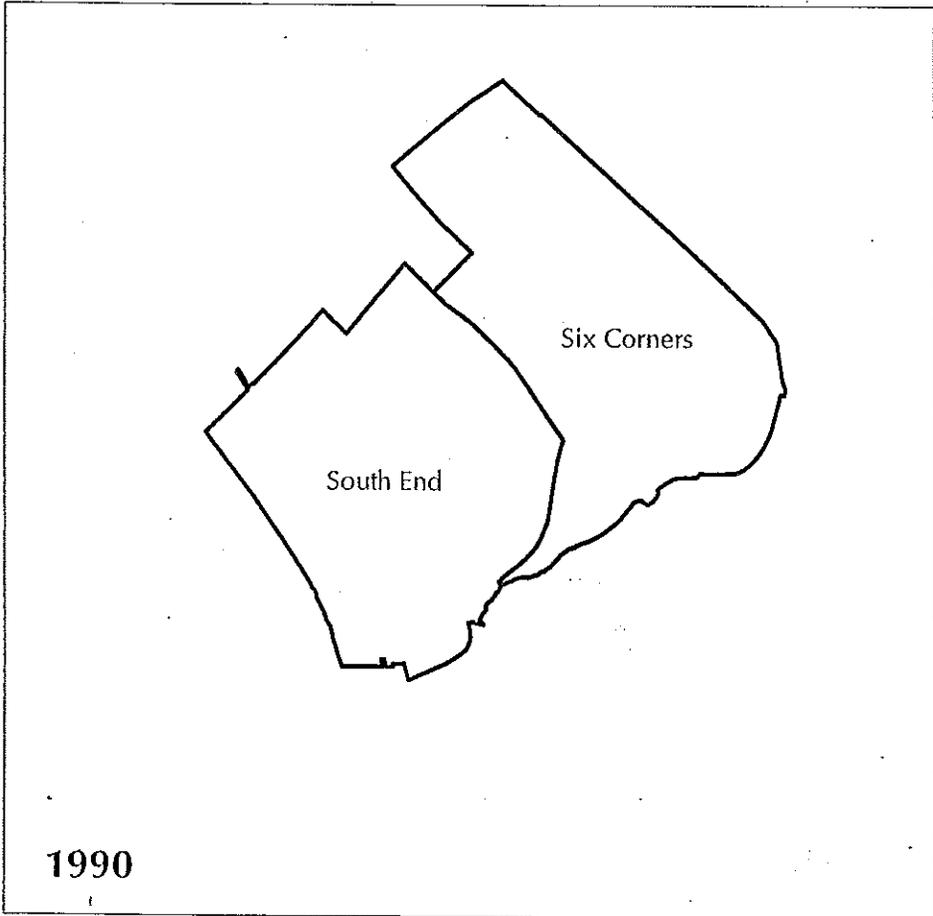

-  Now part of neighborhood
-  No longer part of neighborhood
-  Area of change between neighborhoods

Metro Center

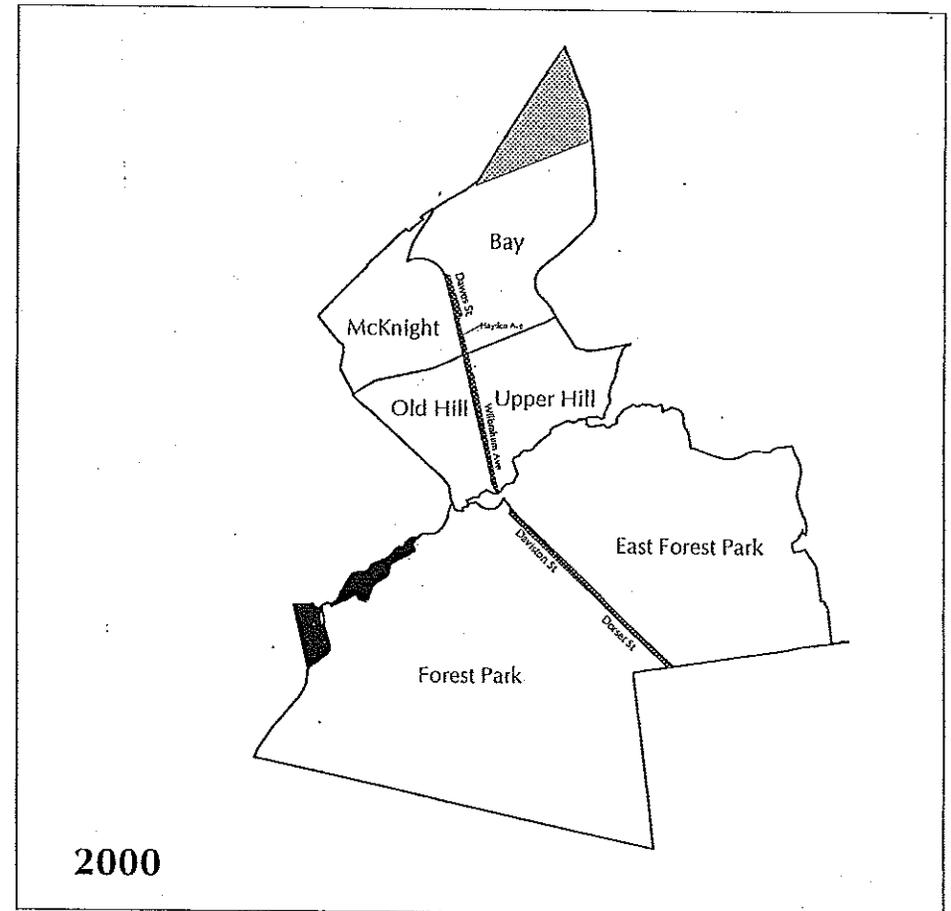

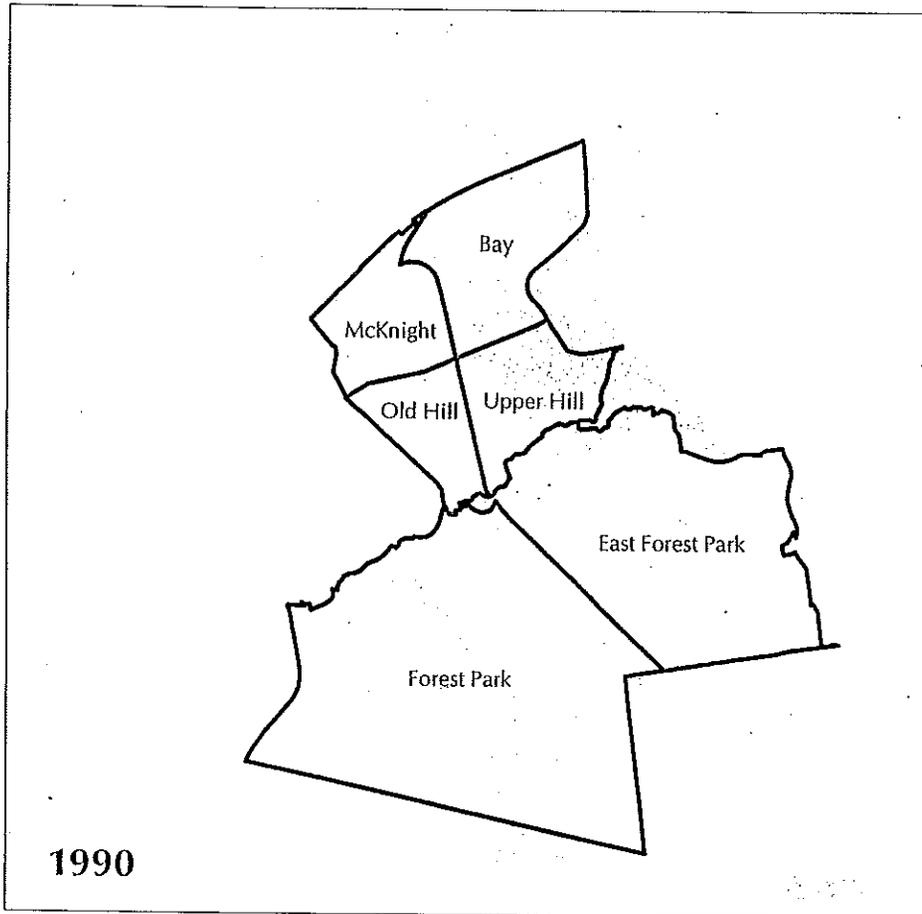

-  Now part of neighborhood
-  No longer part of neighborhood
-  Area of change between neighborhoods

South End and Six Corners

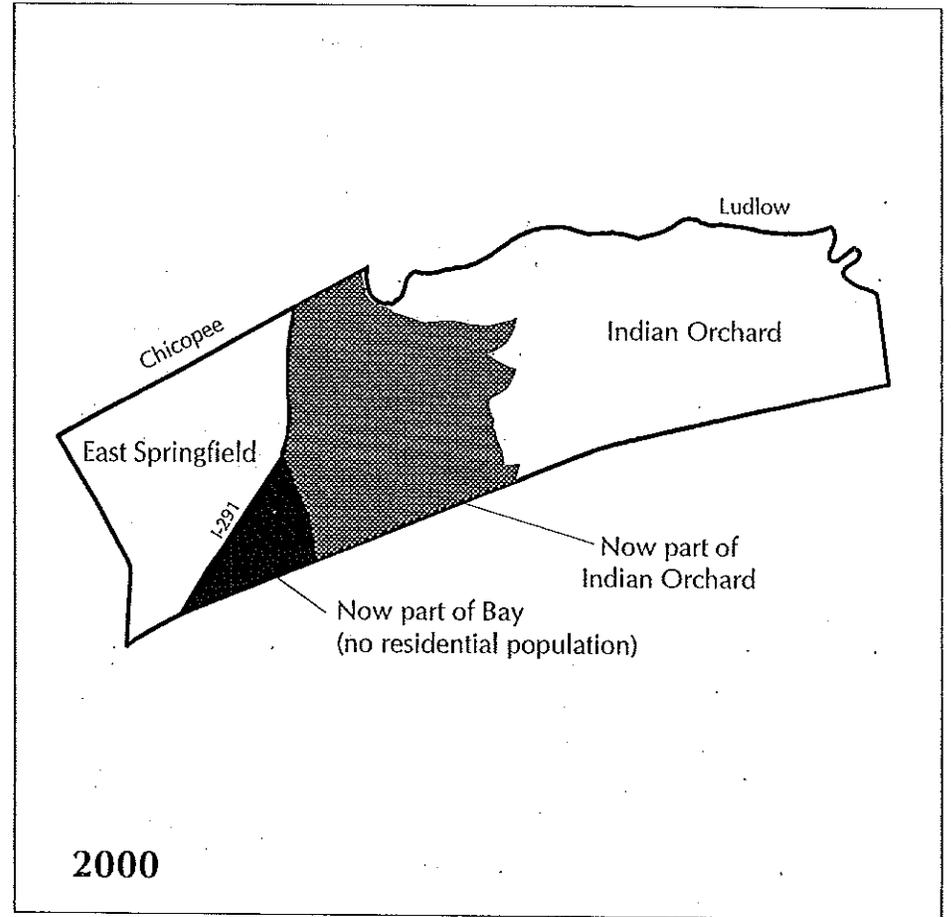

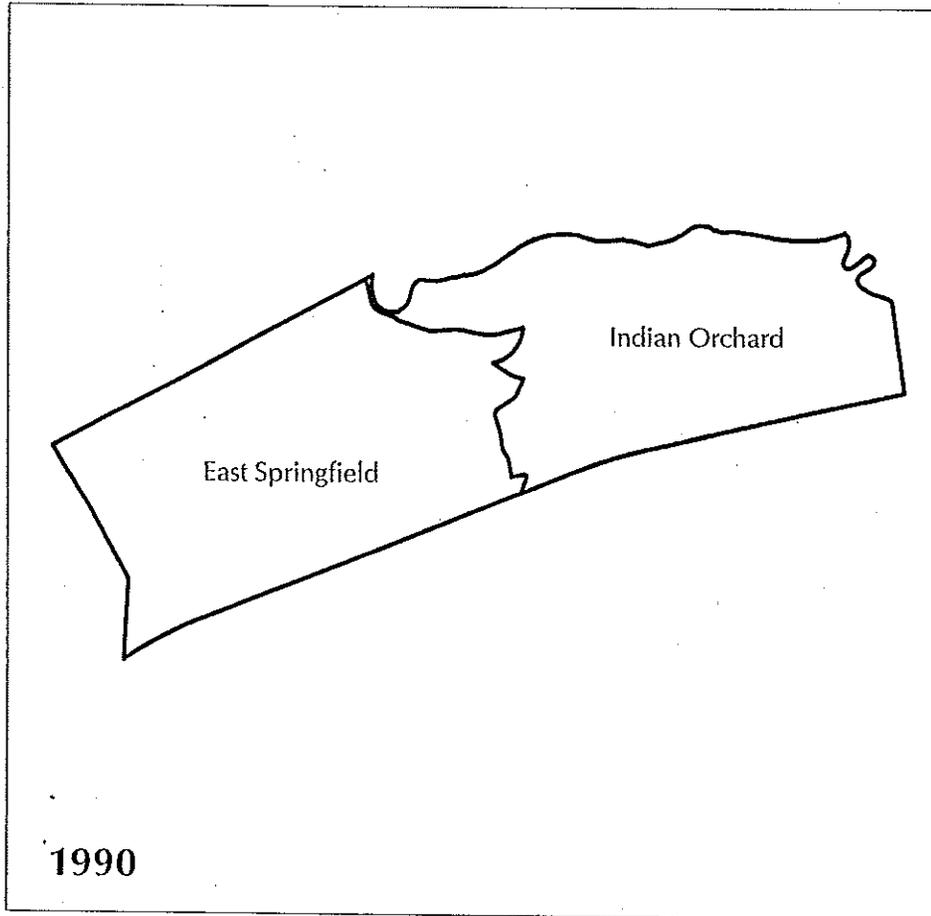

-  Now part of neighborhood
-  No longer part of neighborhood
-  Area of change between neighborhoods

Old Hill, Upper Hill, McKnight, Bay, Forest Park and East Forest Park

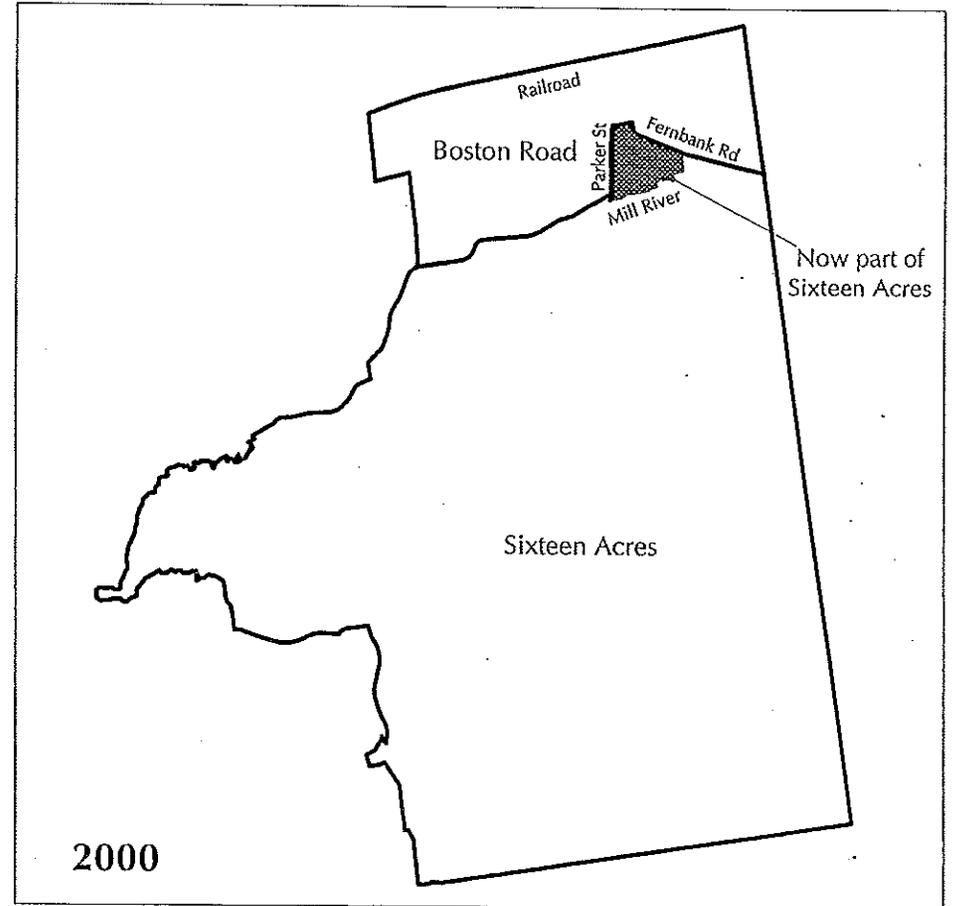

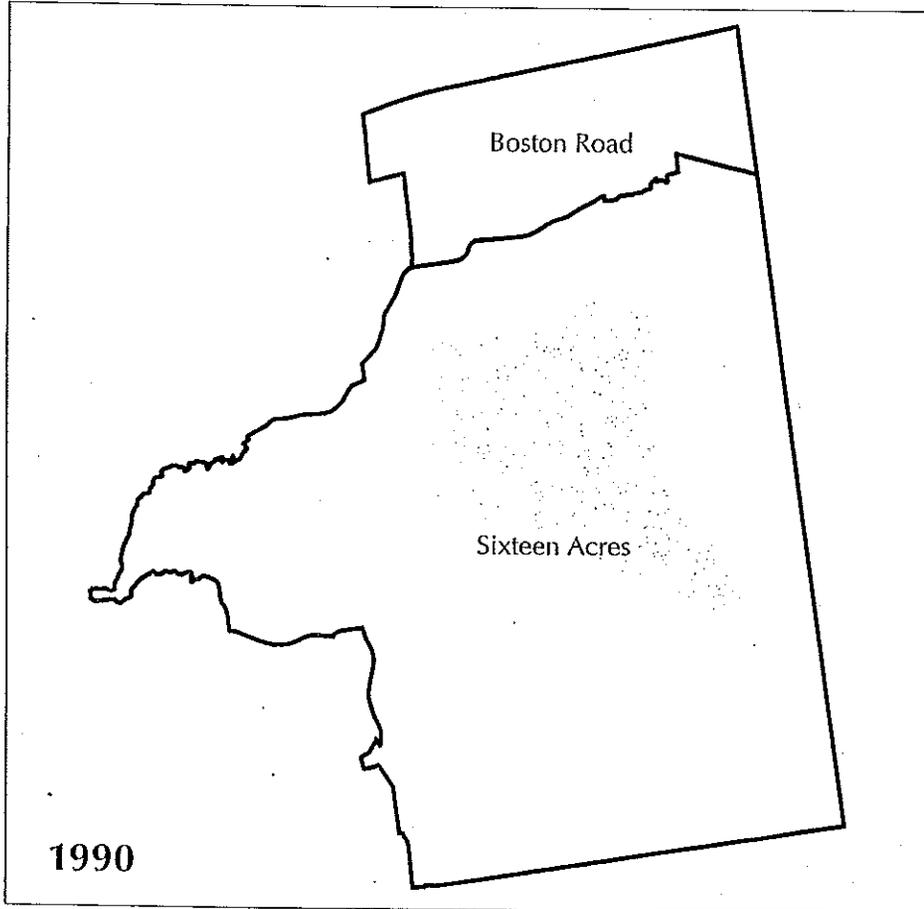

-  Now part of neighborhood
-  No longer part of neighborhood
-  Area of change between neighborhoods

East Springfield and Indian Orchard

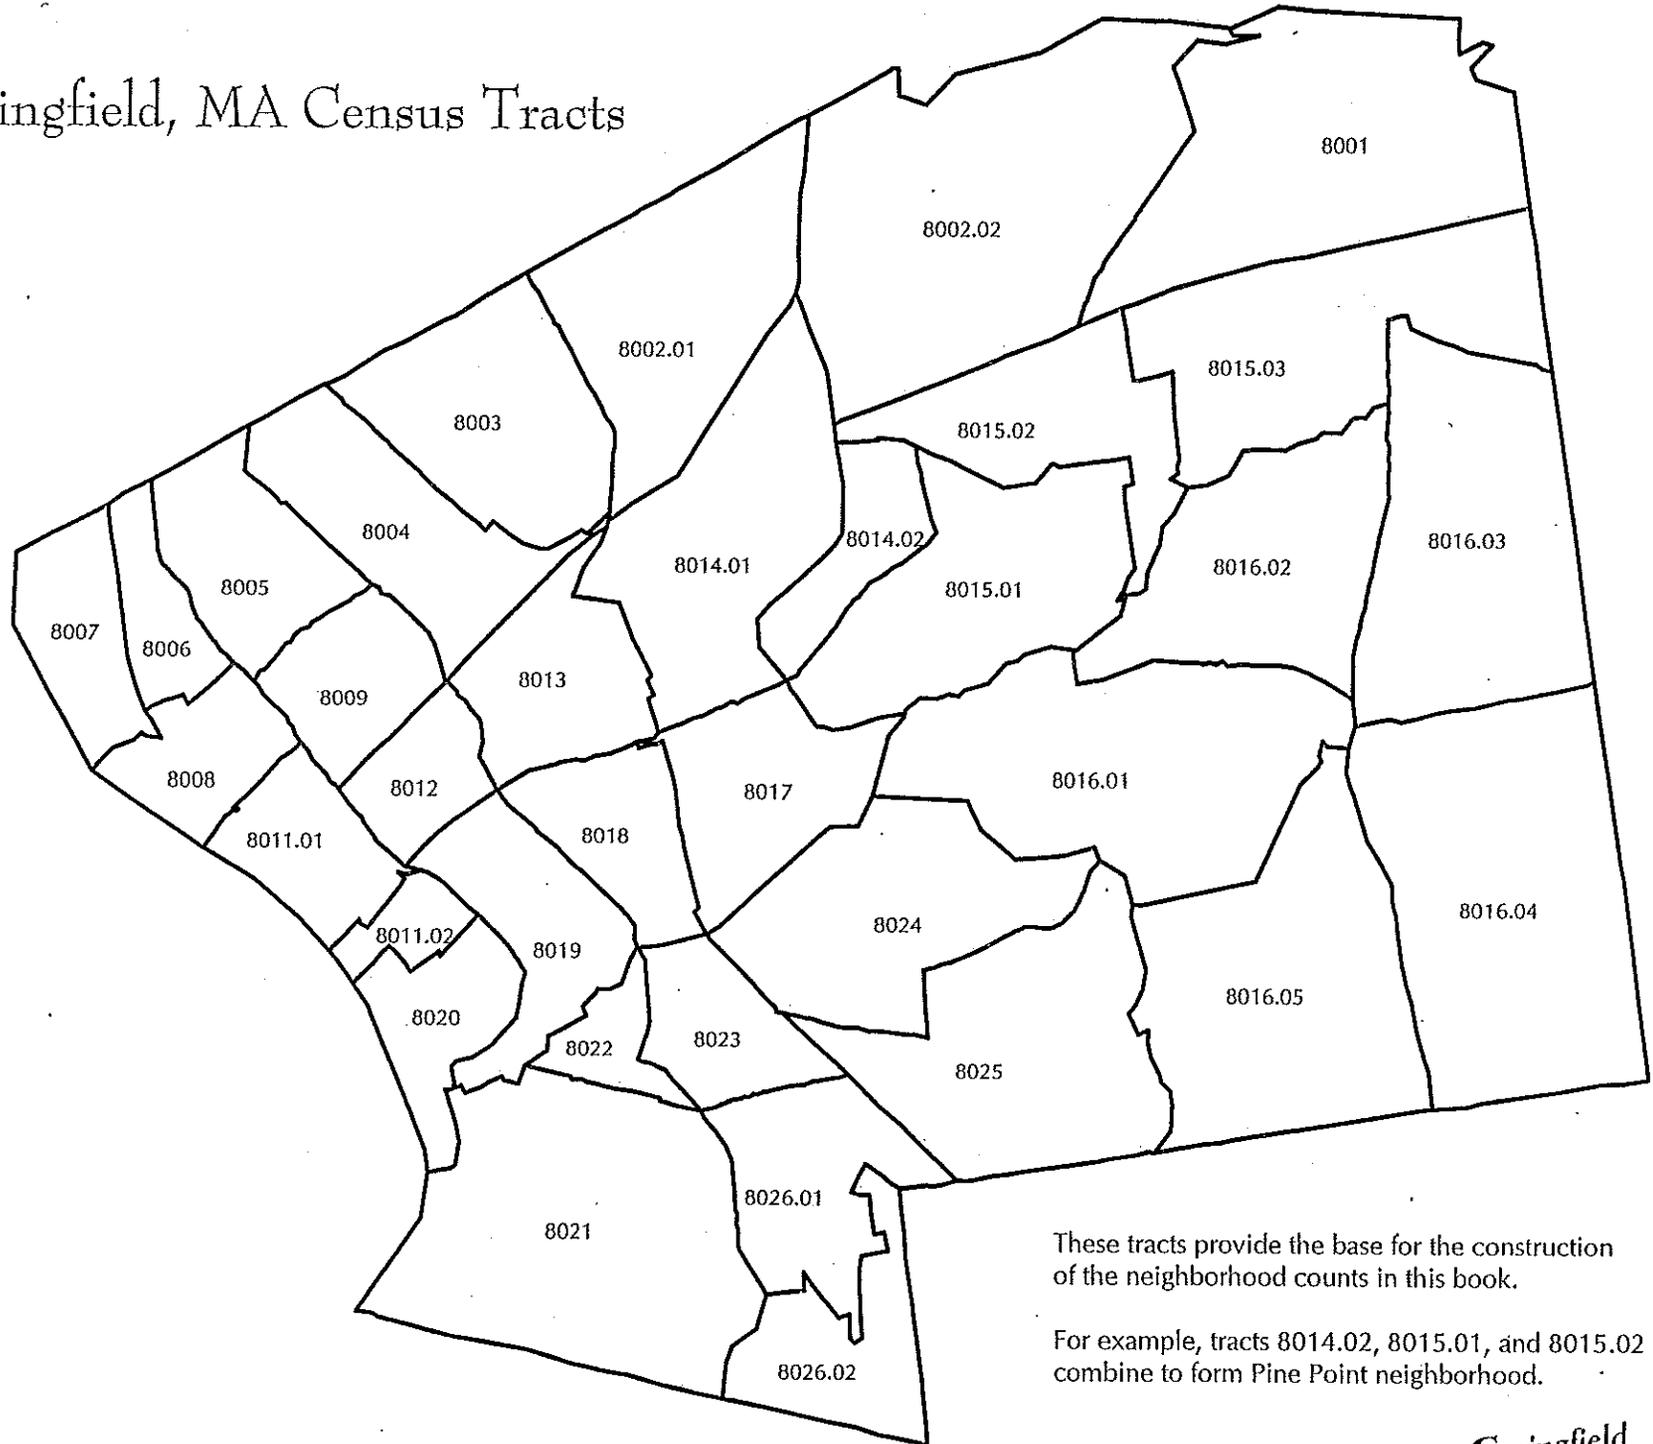

-  Now part of neighborhood
-  No longer part of neighborhood
-  Area of change between neighborhoods

Boston Road and Sixteen Acres

-  Now part of neighborhood
-  No longer part of neighborhood
-  Area of change between neighborhoods

Springfield, MA Census Tracts

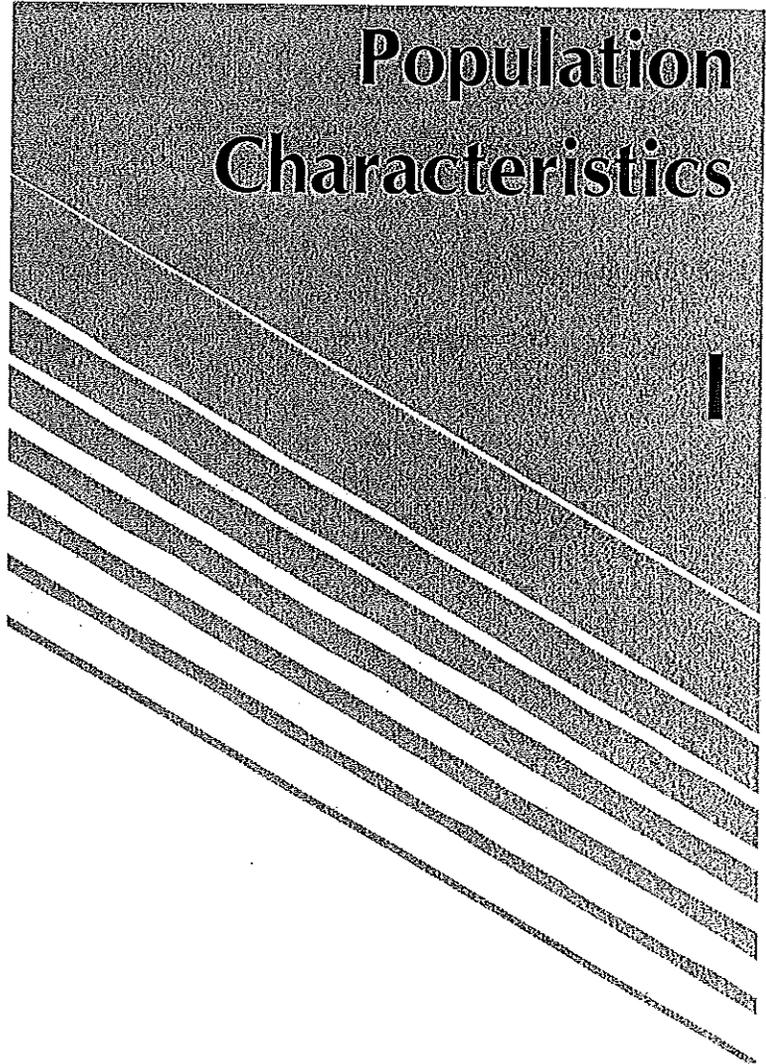

These tracts provide the base for the construction of the neighborhood counts in this book.

For example, tracts 8014.02, 8015.01, and 8015.02 combine to form Pine Point neighborhood.

Population Characteristics

A Household is an occupied housing unit. A Family Household includes a householder and one or more persons living in the same household who are related to the householder by birth, marriage or adoption. A Nonfamily Household includes persons living alone or with nonrelatives only. All persons not living in households are classified by the Census Bureau as living in Group Quarters. These include persons in group homes, nursing homes, college dormitories and various types of institutions.

Educational Attainment

(for persons 25 years and older)

Source: 2000 U.S. Census (Data based on sample and subject to sampling variability)
 Chart prepared by the Springfield Planning Department
 *Neighborhood boundaries do not exactly match - see page 1 for details.

Income and Poverty Status

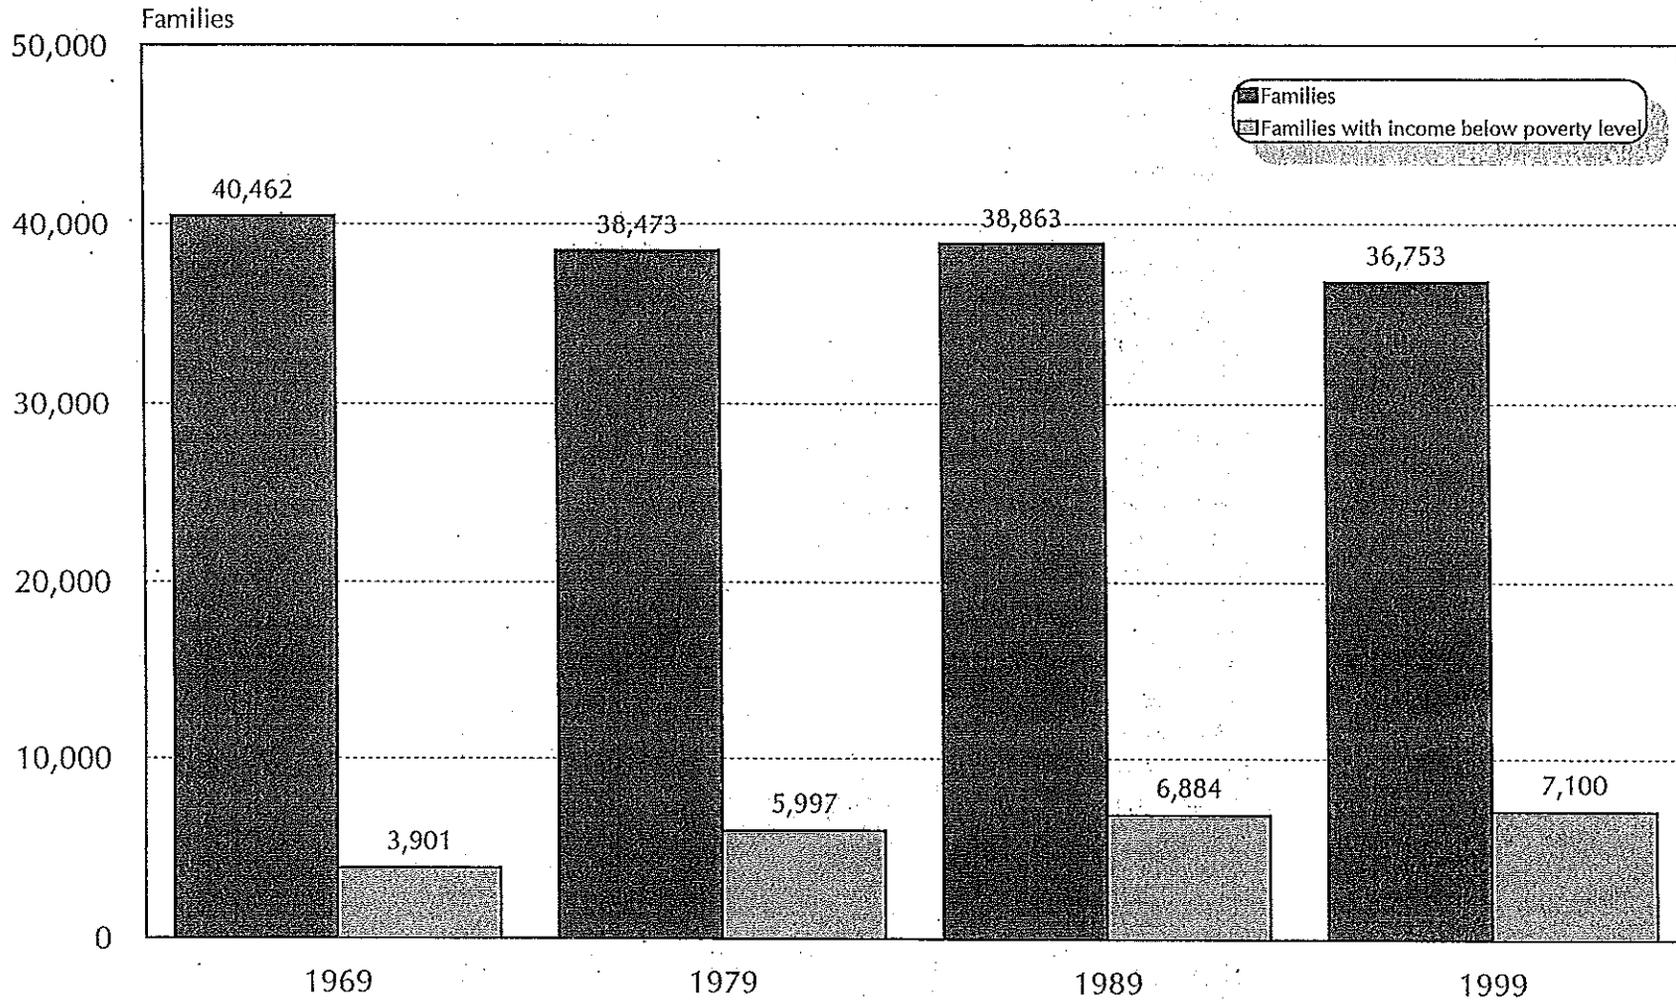

IV

A decorative graphic on the right side of the page. It features a rectangular area with a stippled (dotted) background. Overlaid on this background are several parallel diagonal lines that slope downwards from left to right. The lines are of varying thickness and spacing, creating a layered, geometric effect. The top right corner of this graphic area contains the text 'Income and Poverty Status' and the Roman numeral 'IV'.

Families with Income Below Poverty Level

1969 - 1999

Gross Rent is the contract rent plus the estimated average monthly cost of utilities and fuels if these are paid for by the renter (or paid for the renter by someone else). Gross rent is intended to eliminate differentials which result from varying practices with respect to the inclusion of utilities and fuels as part of the rental payment.
