

Design Public Hearing

Springfield – Rebecca M. Johnson Elementary School

What is happening?

The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed Rebecca M. Johnson Elementary School Improvements (SRTS) project. All views and comments submitted in response to hearing will be reviewed and considered to the maximum extent possible.

How will this affect you?

The proposed project consists of the construction of targeted pedestrian improvements to provide improved access to the Rebecca M Johnson Elementary School with the primary area of focus being along Catharine Street beginning at the intersections of Yale and Dartmouth Streets and ending at the entrance to the school. A new traffic signal is proposed at the intersection of Bay Street and Catharine Street with mast arms to allow for overhead signals to provide greater visibility and fully actuated pedestrian crossings across each leg of the intersection. Improvements also include new sidewalks, traffic calming elements and curb ramps for pedestrian accommodation meeting ADA/AAB requirements. Additional sidewalk improvements are proposed at the Marion Street entrance to the school as well new signage, pavement markings and high visibility crossings with flashing beacons at the Catharine Street entrance to the school.
