

**WESTOVER AIR RESERVE BASE
JOINT LAND USE STUDY
COMMUNITY QUESTIONNAIRE**

The Westover Air Reserve Base (WARB) and Westover Metropolitan Airport (WMA) have a history of positive economic contributions to the surrounding communities in Western Massachusetts. In order to sustain this relationship and promote compatibility between the surrounding communities and WARB, the Department of Defense (DoD) periodically updates a Joint Land Use Study (JLUS). The DoD has enlisted the help of the Pioneer Valley Planning Commission (PVPC) to work with WARB and the surrounding communities to update the JLUS last completed in 2004. This updated effort includes a citizen engagement program to encourage public input.

To gain a better understanding of the relationship between WARB and the surrounding communities, we would appreciate your participation in the following questionnaire. The questionnaire should take roughly 5 minutes to complete. For further information, please contact Larry Smith of the Pioneer Valley Planning Commission at lsmith@pvpc.org.

Click [HERE](#) to take the Community Questionnaire.

Please feel free to forward this email to anyone or any email lists that you think might be interested in participating in this effort. This questionnaire will be available through October 31, 2017.
